

CELEBRATE CAREERS

Employability Reverse Charades

Materials Needed: Employability Skills Reverse Charades Cards and Timer

1. Split students evenly into teams of 3 or more students.
2. Each team selects a "guesser" (every person on the team will take a turn). The team that is up first will draw a card. The guesser should not see this card.
3. The teacher starts a 1 minute timer and the team acts out the words on the card. No verbal communication can be used. The use of objects, or persons are permitted.
4. Once the guesser answers correctly, the team will draw another card and continue until the timer runs out.
5. Teams are allowed one "pass" each round if they cannot guess a card. That card should be placed back to the bottom of the deck.
6. If there is any dispute about the guess of a charade being correct, the determination is left up to the teacher.
7. Once the timer runs out, the next team is up.
8. The teacher will decide how many rounds the teams will play.
9. At the end of the game, the team with the most cards guessed correctly wins!
