

TEAMWORK

Students will learn the importance of working together to accomplish a task.

- Have the students pair up in groups of 2.
- Give each group 2 popsicle sticks.
- You will have pompoms and cups spread out on the table.
- Tell the students that together they must use the 2 popsicle sticks to pick and up transfer pompoms into the cups.
- You set the guidelines of what pompoms go where.
 - Separate by size
 - Separate by color
- Time them to see how quickly they can complete the task.
- Talk with them about their method and what worked or what would've made the task easier.
